A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 26, 2009 has been entered.

Claim 4 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should depend from other claims in the alternative only.

See MPEP § 608.01(n). Note that claim 4 depends from both claims 1 and 2.

Claims 5, 15, 17, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology "perylenyl or fluorenyl, benzyl" (claim 5) is an improper markush terminology in that the term "or" should be between the last two species.

Also the terminology "R1 is ... alkenyl, group" (claim 5) is improper.

The terminology ""composition defined in claim 5" and "composition defined in claim 6" renders claims 21 and 22 indefinite since claims 5 and 6 are compound claims.

Applicant's arguments filed May 26, 2009 have been considered but are moot in view of the new ground(s) of rejection.
